Nathan Karp

Nazareth, PA 18064 | 610-703-9440 | n.karp8@gmail.com

Objective

Information Technology student at Penn State Lehigh Valley with a strong interest in application development, software engineering, and cybersecurity. My goal is to build impactful, user-focused applications while gaining real-world experience in secure, scalable development environments like those at Lockheed Martin. I am seeking an IT internship at Lockheed Martin to contribute to meaningful projects in global security and defense while learning from experts who share my passion for innovation and teamwork.

Education

Penn State Lehigh Valley – Center Valley, PA
Bachelor of Science in Information Technology
Focus: Application Development
